

# 1 DIMONOFF

## DimOnOff Smart City Sensors

DimOnOff offers IoT management solutions for many sectors that need to become more efficient by gathering better data and distilling insight for improved decision making:

# SmarterCity.Tech

## SMART STREET LIGHTING SOLUTION

# 2 NOVA CELLTECH

## Nova CellTech Base Technology

Aesthetically customized 5G capable pole with or without street lighting. In house engineering and 5 manufacturing facilities assures the best and most efficient delivery in the industry.

# 3 Microsoft Azure

## MS Azure IoT Edge & Analytics

Azure IoT Edge moves cloud analytics and custom business logic to devices so that your organization can focus on business insights instead of data management.

# 4

## Edge Micro Data Centers

The demand for new data centres at the network's edge is growing exponentially, driven by the emergence of applications requiring data to be processed much closer to where it's generated.

# 5 SMART CITY CAPITAL

## Funding from SmartCity Capital

SmartCity Capital will enable your smart city projects by providing the financial means to bring it together.
